

Professional Biography

Over 11 years of experience in the field of photography, illustration, graphic arts, book design and graphic design. In these areas I possess a thorough and wide technical and practical knowledge.

During the period between the years 2002 and the end of 2005 I worked part-time in the area of graphic arts, illustration, photography, layout and graphic design, website design. I would particularly point out the work at the National Theatre in Belgrade, on the design, development and production of this cultural institution website. Additionally I'd like to mention work on monograph book "Lepa Srbija" and websites for professional actor association SDUS (current UDUS). In late 2005 I've got a steady job as Photography Editor at the Serbian edition of Playboy magazine, under the label Attica Media SRB, position I still occupy. Since 2010, under the same publishing house, I'm Photo Editor for multiple titles.

Along with my regular job I'm taking care of my education, knowledge and skills in the field of illustration, graphic arts, drawing and painting, occasionally working for titles under the label Attica Media SRB.

I'm maintaining and complementing my portfolio on microstock agencies like Fotolia and 123RF. Additionally I'm studying and occasionally practicing information technologies and systems: PHP, MySQL, Joomla CMS.
